

### **Uses for Organic Espresso Coffee Grounds around the Home:**

- Skip the toxic abrasive cleaners for pots and pans and use a handful of coffee grounds instead.
- Scour (non-porcelain) sinks with coffee grounds.
- Coffee grounds can also be used as a deodorizer. Place grounds in a jar or dish to absorb odours from refrigerators and freezers.
- Leave a dish of coffee grounds out to absorb odours in rooms that have an unpleasant odour.
- Deodorize a car that may have had one too many fast-food items left in it.
- Rub on hands to remove food prep odours.
- Use coffee grounds for natural ant control. Place dried grounds in the areas ants frequent. The smell is a deterrent.
